

# ITP 308: Lab 7 – CSWA Part File

## Setup:

You will be given a PDF with a sample part from the CSWA. Your job is to model the part given the dimensions and origin (if one is supplied).

The PDF is available through Blackboard.

## Deliverables:

Name your part:

**simplepart.sldprt**

Compress into a single zip file and name it:

**username\_lab7.zip**

Where *username* is your USC username.

Also, provide your answer(s) to the questions in the PDF in the submission text box.

## Rubric:

Item	Points
Answer(s) is/are correct	10 points
Part has material	2 points
Part is designed correctly	3 points
Total	15 points

\*Note: Points will be taken off for using “fix” relationship in sketches and if sketches are under-defined.
